

FOREIGN TRANSCRIPTS must be evaluated for course equivalency by a commercial credential evaluation service. Therefore, in addition to submitting your application and nonrefundable fee to the Environmental Health Specialist (EHS) Registration Program, you will need to forward your **official transcripts** to a commercial credential evaluation service such as is listed below. These services operate for a fee based on the extent of education evaluated. Request that the evaluation service forward a letter to the EHS Registration Program stating whether or not your degree is equivalent to a bachelor's degree offered by a United States college or university. The evaluation must indicate whether or not your degree includes lecture and/or laboratory instruction for general basic science courses required of **science majors** including **inorganic chemistry, organic chemistry, physics, biology, microbiology, and calculus or college algebra (third-year algebra)**. This letter from the credential evaluation service must state that these courses have been successfully completed and must indicate the number of equivalent United States semester units each course represents. (**NOTE:** This list is supplied for informational purposes only and in no way implies formal recognition or approval by the Department of Health Services of the agencies listed or their advisory interpretations.)
